FINANCIAL:

All payments are expected when services are rendered. We will make every effort to provide a treatment plan that is best for your oral health and budget. Once the diagnosis has been completed, a written summary and cost estimate will be prepared for your approval. For those patients with dental insurance, you will only be responsible for the portion NOT covered by insurance. Nevertheless, should the insurance company not cover the estimated portion, you remain responsible. We will do everything possible to ensure your insurance benefits are maximized and out of pocket expenses are minimized. Your dental benefit plan has been arranged through your employer and an insurance carrier; it is not an agreement between your insurance company and us. We file dental insurance as a courtesy to our patients. For your convenience, we accept all major credit cards. Patients may also apply for Care Credit, a third-party financing service.

Thank you for your cooperation.
